30/60/90 Day Onboarding Plan Template

For managers onboarding a new hire into a technology team who need a concrete ramp-up path tied to real accountability, not just orientation logistics.

> How to use this: Fill in specific milestones for each 30-day period before the new hire's first day, tailored to their role scorecard, and share the completed plan with them directly.

Role and Context

New hire name and role:

Manager:

Linked role scorecard outcomes this plan ramps toward:

First 30 Days: Context and Small Real Work

Focus on understanding the product, team, and stakeholders.

What should this person understand about the product/business by day 30?

Who are the key people they need to have met and built early rapport with?

What is the first small, real, low-risk piece of work they will complete?

Day 60: Independent Ownership Checklist

- [ ] Owns at least one defined, real piece of the role without step-by-step guidance
- [ ] Has completed their first unsupervised customer or stakeholder interaction (if relevant)
- [ ] Manager and new hire have identified any early friction points explicitly
- [ ] A specific plan exists for any identified friction point
