# Partner Onboarding Toolkit

For partnerships and channel leaders onboarding referral, reseller, implementation, or ecosystem partners in their first 90 days.

> How to use this: Select the partner type below, follow the milestone sequence for the first 90 days, and assign a named internal owner to drive each stage.

## Partner Onboarding Snapshot

Partner name and type:

Internal owner responsible for driving this partner through onboarding:

Target date for first activity (introduction, deal, or implementation):

## Onboarding Inputs by Partner Type

Confirm the partner has received what they specifically need to start, based on their type.

| Partner Type | Required Input | Delivered? (Y / N) | Date Delivered |
|---|---|---|---|
| Referral | Concrete ideal customer profile + feedback loop after introductions | | |
| Reseller | Product training, pricing / margin clarity, named responsive contact | | |
| Implementation | Product access, certification path, real project examples | | |
| Technology / Ecosystem | Technical docs, sandbox/API access, shared joint value story | | |

## First 90 Days Milestone Checklist

- [ ] Kickoff call completed with clear roles named on both sides
- [ ] Enablement materials delivered and confirmed received (not just sent)
- [ ] First prospect or account identified by name
- [ ] First customer-facing conversation or activity completed
- [ ] First deal, introduction, or implementation milestone reached
- [ ] 30/60/90-day check-in calls scheduled in advance, not scheduled reactively

## Check-In Log

Track milestone-focused check-ins, not general relationship calls.

| Date | Milestone Discussed | Blocker Identified | Next Action |
|---|---|---|---|
| | | | |
| | | | |
| | | | |

## 90-Day Outcome Review

Did the partner reach their first meaningful activity within 90 days?

If not, what specifically stalled: missing materials, missing capacity, or missing internal follow-up?

What will we change about onboarding for the next partner of this type?
